EXPERIENCE

GAM Creative Marketing – *Front End Developer*

APRIL 2016 – June 2021

Developed web applications for a multitude of clients including Wal-Mart Canada. Worked in a small team with diverse skill sets to develop web apps.

EDUCATION

Humber Institute of Applied Technology

Diploma in Computer Programming May 2015

Gained a foundation in a wide array of computer science disciplines, including but not limited to web application development.

PROJECTS

`www.walmartphotocentre.ca`

A large scope web application that allows users to upload, edit, preview and order photo products. Worked on this project for 5 years and understood it's inner workings completely. Developed much of the Front End, including user interfaces, product builders, Dynamic pages with the CMS and product previews.

`www.kulapix.com`

Photo Product website similar to Walmart Photo Centre but made for the US Market. Both websites share a backend however the front end was overhauled. Learned to create modular code to avoid repetition between projects.

`www.gamcreative.com`

Simple website created in a short time frame working closely to a designer to provide a quick new look for our company.

TECHNICAL SKILLS

- **Front End** : HTML, CSS, SCSS, JS, JQuery, React.js, Bootstrap, threeJS, pixiJS, Gulp, AODA compliance
