189 Castlepoint Drive  
Vaughan, ON, L4H 1G5

### EDUCATION

May 2015

**Computer Programming  
Diploma,**

*Humber Institute of Applied  
Technology  
– Toronto*

### KEY SKILLS

- HTML/CSS
- Javascript/TypeScript
- React/Redux
- NodeJS
- A11y and AODA compliance
- Git

### Volunteering

2020 - Current

**CCL climate lobbyist**

Spoke with multiple federal MP's  
on the topic of climate policy.

### PROFESSIONAL EXPERIENCE

#### Front End Developer

Pivot / Hitplay

January 2022 – Present

- Worked on the **pivotnow.io** web application. This software monitors devices in conference rooms and detects issues as they happen in order to dispatch technicians to troubleshoot these issues with pivot's assistance.
- Built an editable table component that allowed users to edit devices in a room. This replaced an old method of uploading CSV. Handled asynchronous data as options will fill out as table cells are set. Optimised performance to handle up to 200 devices smoothly. Created custom rules for validation.
- Built a dynamic help page system that enabled documentation writers to write markdown help files on github. These files would be automatically deployed and converted to JSX on the web app, using custom elements to make the markdown more dynamic. Used github api to track when a file was last changed.

#### Front End Developer

GAM Creative Marketing

April 2016 – June 2021

- Worked on the **walmartphotocentre.ca** web application. This software allows users to upload, preview and order photo products.
- Built product builders using plain javascript. Gaining an understanding of design patterns and keeping code clean. Utilized the MVC design pattern to build components, such as a colour picker.
- Worked with graphics frameworks such as pixi.js and three.js to create interfaces for creating and viewing photo products.
- Lead multiple front end overhauls. Such as making the website AODA compliant, updating the bootstrap component library and full redesigns.
- Maintained company website and landing pages for other businesses.
